is a protective measure. Every change made by the finance committee was made by way of adjustment to a protective basis except such as free wool and free sugar which were determined upon outside. They treated the agriculture schedule, I regret to say, on a free trade basis and I would have retained more duty on cutlery and some other articles on which there is no data, in order to be sure not to ruin American production. Give the democrats time and they will put everything on a free trade basis, but they have not done it in this bill."

Sen. Poindexter said of his vote: New Measure Better.
